

Laurel Bridge Software Partners with Strategic Radiology®

Creates opportunity to develop unique workflows to enhance consortium members' imaging services.

NEWARK, Del., September 6, 2016 /PRNewswire/ -- Laurel Bridge Software, a provider of enterprise medical [imaging workflow solutions](#), announces a new partnership with [Strategic Radiology®](#) (SR®), a national consortium of over 26 radiology groups. SR members will receive preferred access to Laurel Bridge imaging workflow, archiving, and consolidation solutions.

SR's consortium consists of progressive radiology groups that share data, best practices, clinical expertise, and consolidate certain practice expenses. "We are always looking for opportunities to improve clinical quality and deliver our services in a more cost-efficient manner", notes Arl Van Moore, Jr. MD, Strategic Radiology Chairman. "We believe that Laurel Bridge enterprise imaging workflow solutions will enable our members to achieve these goals individually and collectively, by enabling us to meet the unique and evolving imaging needs of our customers."

"We look forward to working more closely with Strategic Radiology after initial success helping individual consortium members", says Mark Blair, CEO of Laurel Bridge Software. "By considering the Strategic Radiology member network as their unique imaging enterprise, we can help identify opportunities for them to leverage our centralized, scalable solutions for medical image ingestion, routing and retrieval."

About Laurel Bridge Software

Complex, mission-critical imaging workflows can strain an organization's IT capabilities, particularly when multiple business entities and their disparate clinical imaging systems must be unified. Laurel Bridge Software provides enterprise imaging workflow solutions, which reliably ensure new and historical DICOM imaging studies, HL7 messages, and non-DICOM objects are available to the clinical staff, at the point of care. Our imaging workflow solutions have been implemented at thousands of healthcare facilities, teleradiology service providers, and radiology group practices in more than 35 countries, both directly and through integration partners. About Strategic Radiology

Strategic Radiology consists of 26 geographically diverse and forward thinking US-based radiology group practices representing more than 1,400 radiologists. SR's goal is to achieve higher quality patient care and more cost efficient delivery of medical imaging through an integrated approach of shared data and best practices, interchanging clinical expertise, and consolidating certain practice expenses.
